

This Sunday, Andy began the new series on "The Famous One - Big Big God". Andy discussed how everything God has created serves to show His Glory to us. He created a huge universe in which we are very small and yet He is so much greater than anything He has created! We are so small, and yet He has purposed to reveal Himself to each of us. He knows us each by name and is concerned with all that we do. In fact, God created each of us as a PART of His glory, a part of that which reveals Him as God. We are each distinct and unique, a never-before and never-repeated one-of-a-kind creation. He takes pleasure in each of us for our uniqueness. He values each of us so much that He entered into His creation as one of us and gave Himself for each of us.

This week ask yourself these questions:

Where is your favorite spot outdoors to meet with God and why?

Why does God like to show off the things He has made?

What gets in the way of you and me being God's best "glory statement"?

How can you glorify God this week through your life?

Do you know anyone who you can invite next week?
